INTRODUCTION

Problem Statement : ShopForHome is a popular Store in the market for shopping the home décor stuff . Due to Covid 19 all the offline shopping stopped. So, the store wants to move to the cloud platforms and wants their own web application.

There are 2 users on the application –

1. User
2. Admin

APPLICATIONS USED

Backend

- Java 11
- Spring Boot 2.2
- Spring Security
- JWT Authentication
- Spring Data JPA
- Hibernate
- Maven

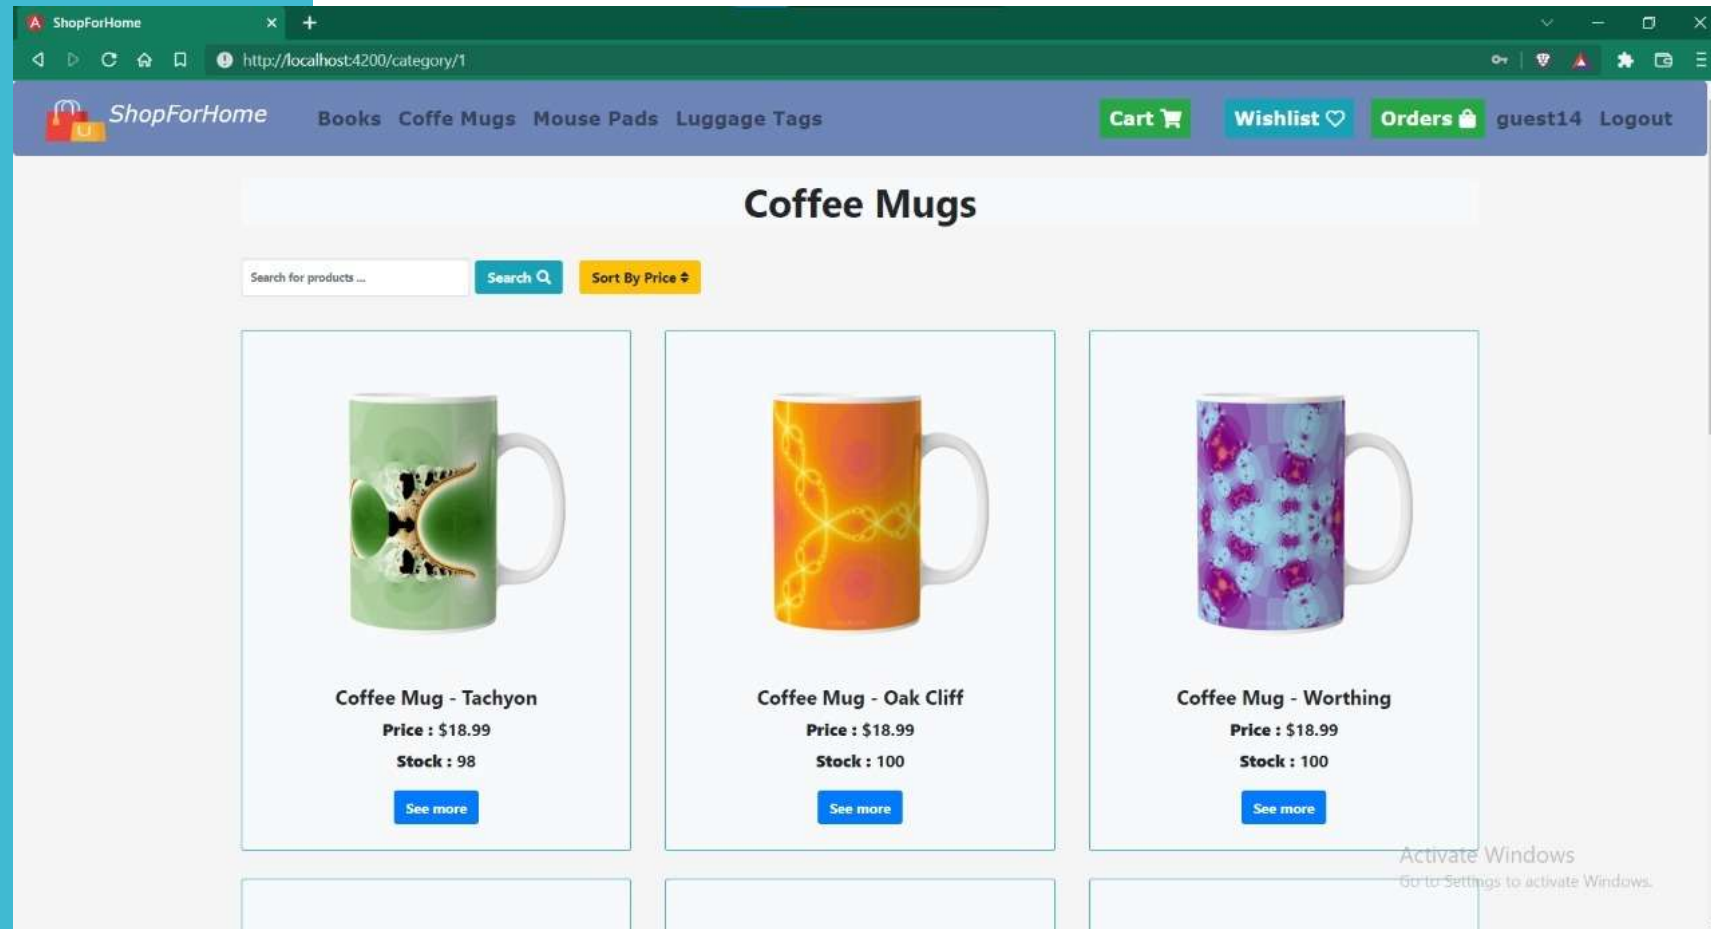

Frontend

- Angular 7
- Angular CLI
- Bootstrap

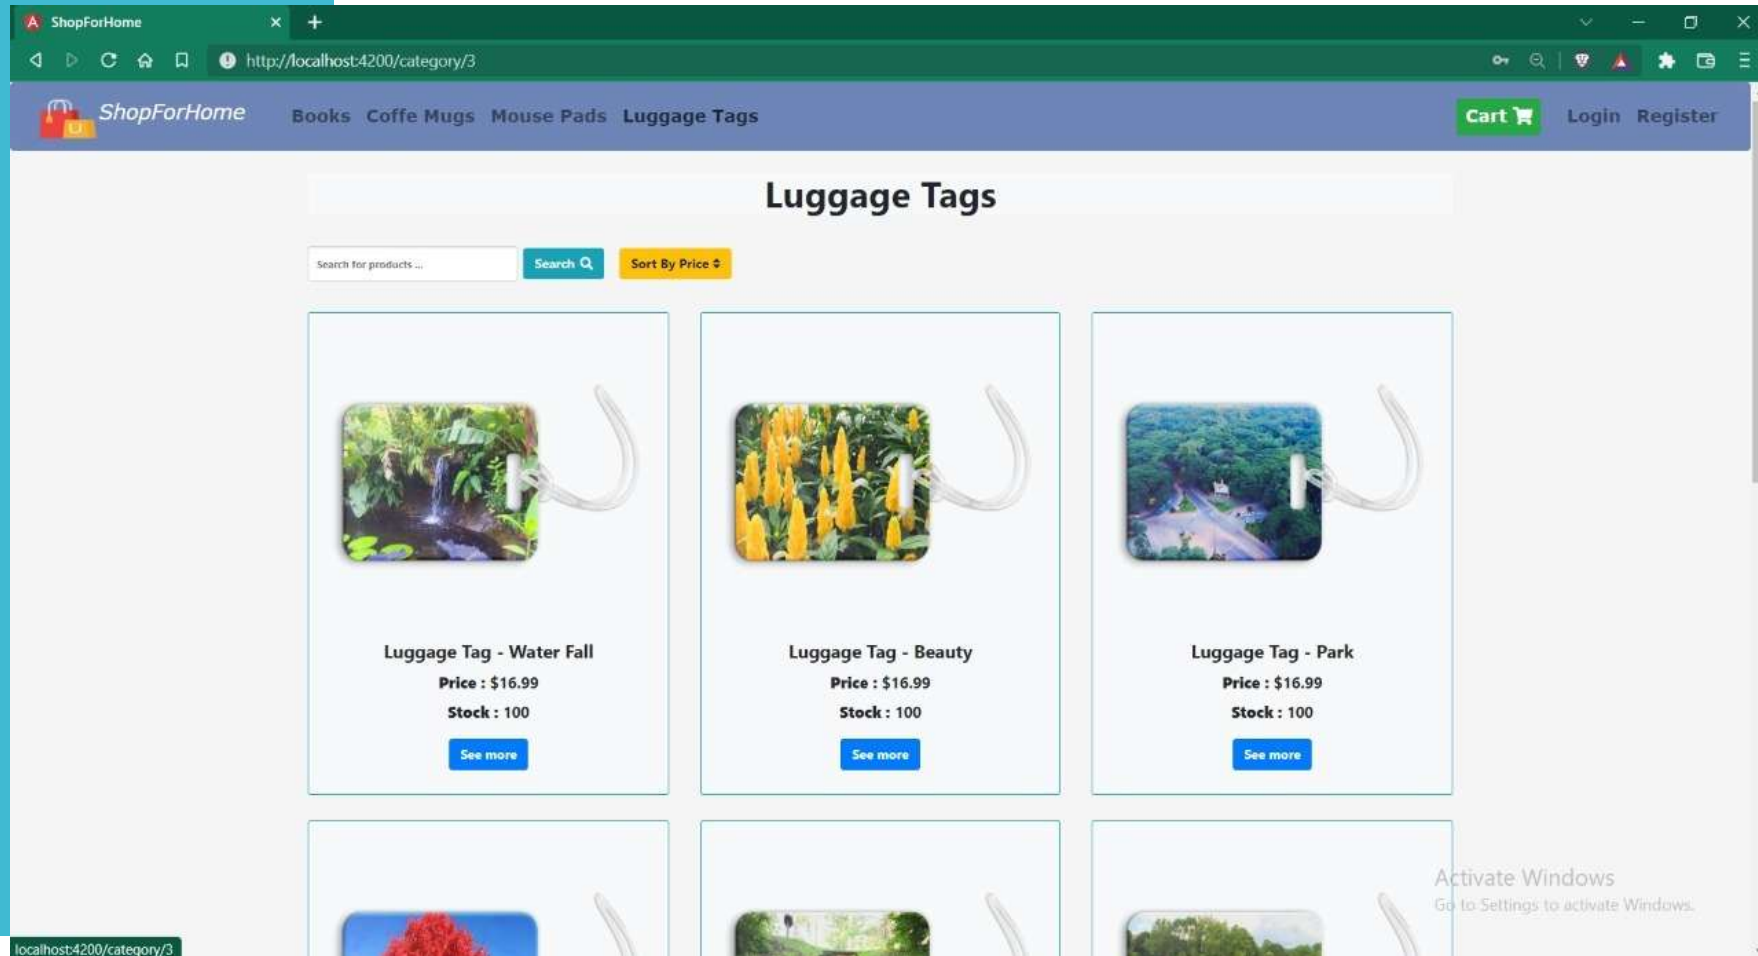

USER

- 1.As a user I should be able to login, Logout and Register into the application.
- 2.As a user I should be able to see the products in different categories.
- 3.As a user I should be able to sort the products.
- 4.As a user I should be able to add the products into the shopping cart.
- 5.As a user I should be able to increase or decrease the quantity added in the cart.
- 6.As a user I should be able to add “n” number of products in the cart.
- 7.As a user I should be able to get the Wishlist option where I can add those products which I want but don’t want to order now.
- 8.As a user I should get different discount coupons

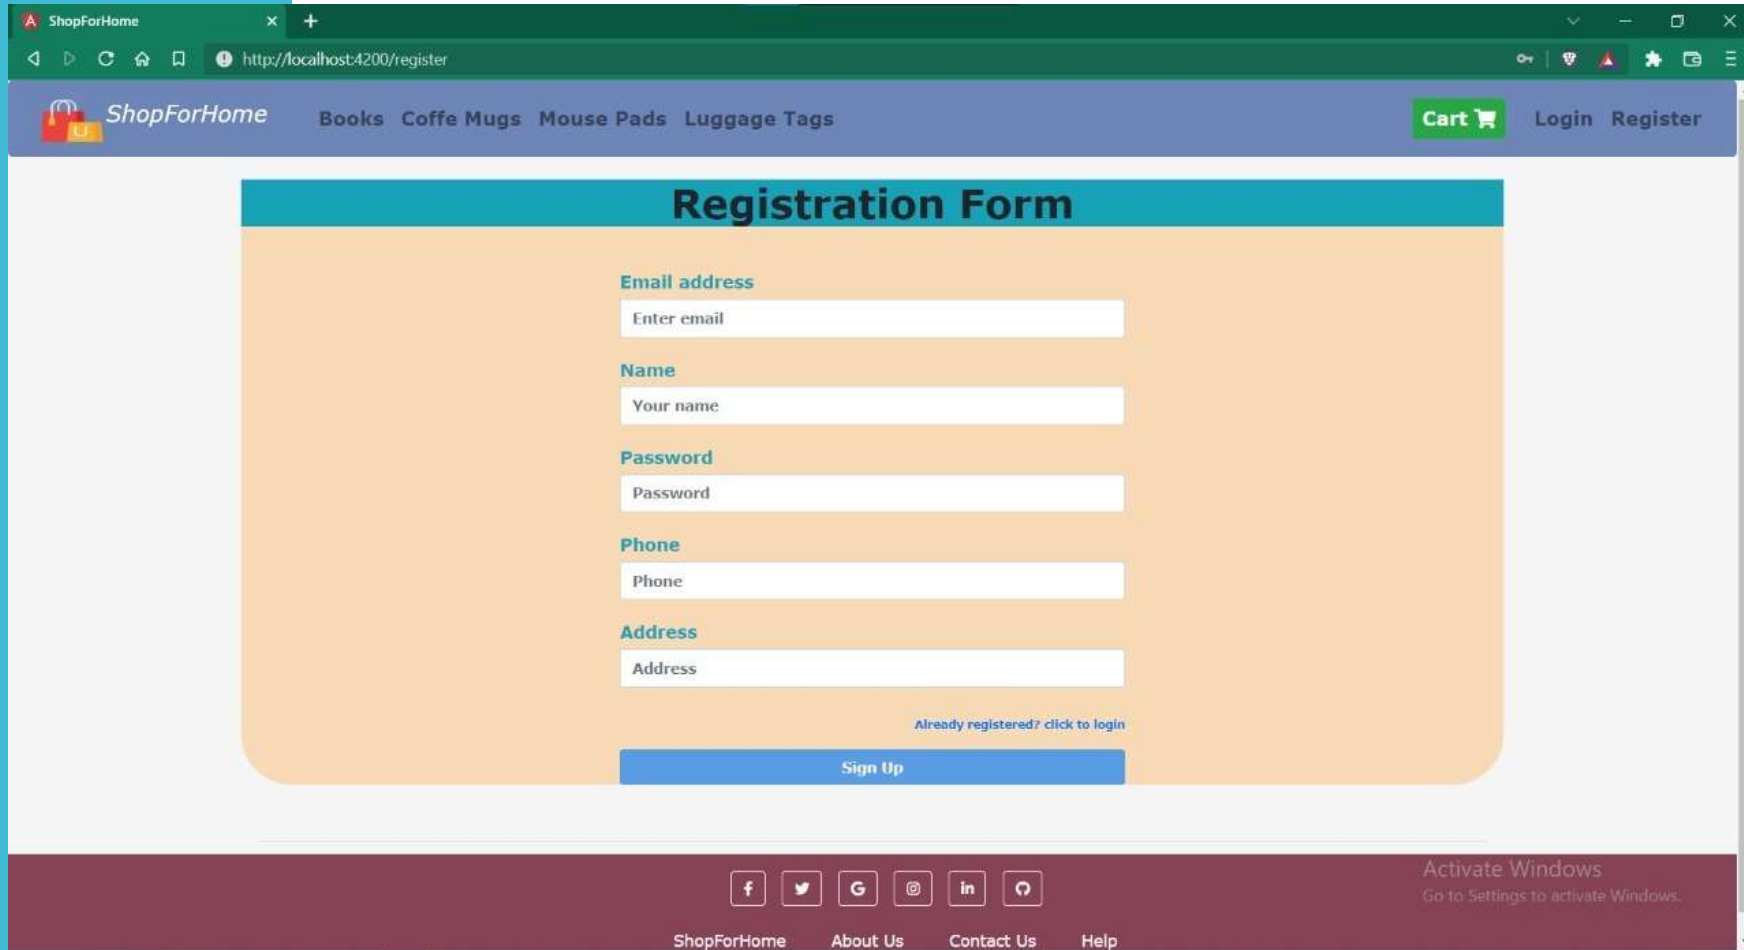

HOME PAGE (USER)

CUSTOMER REGISTRATION

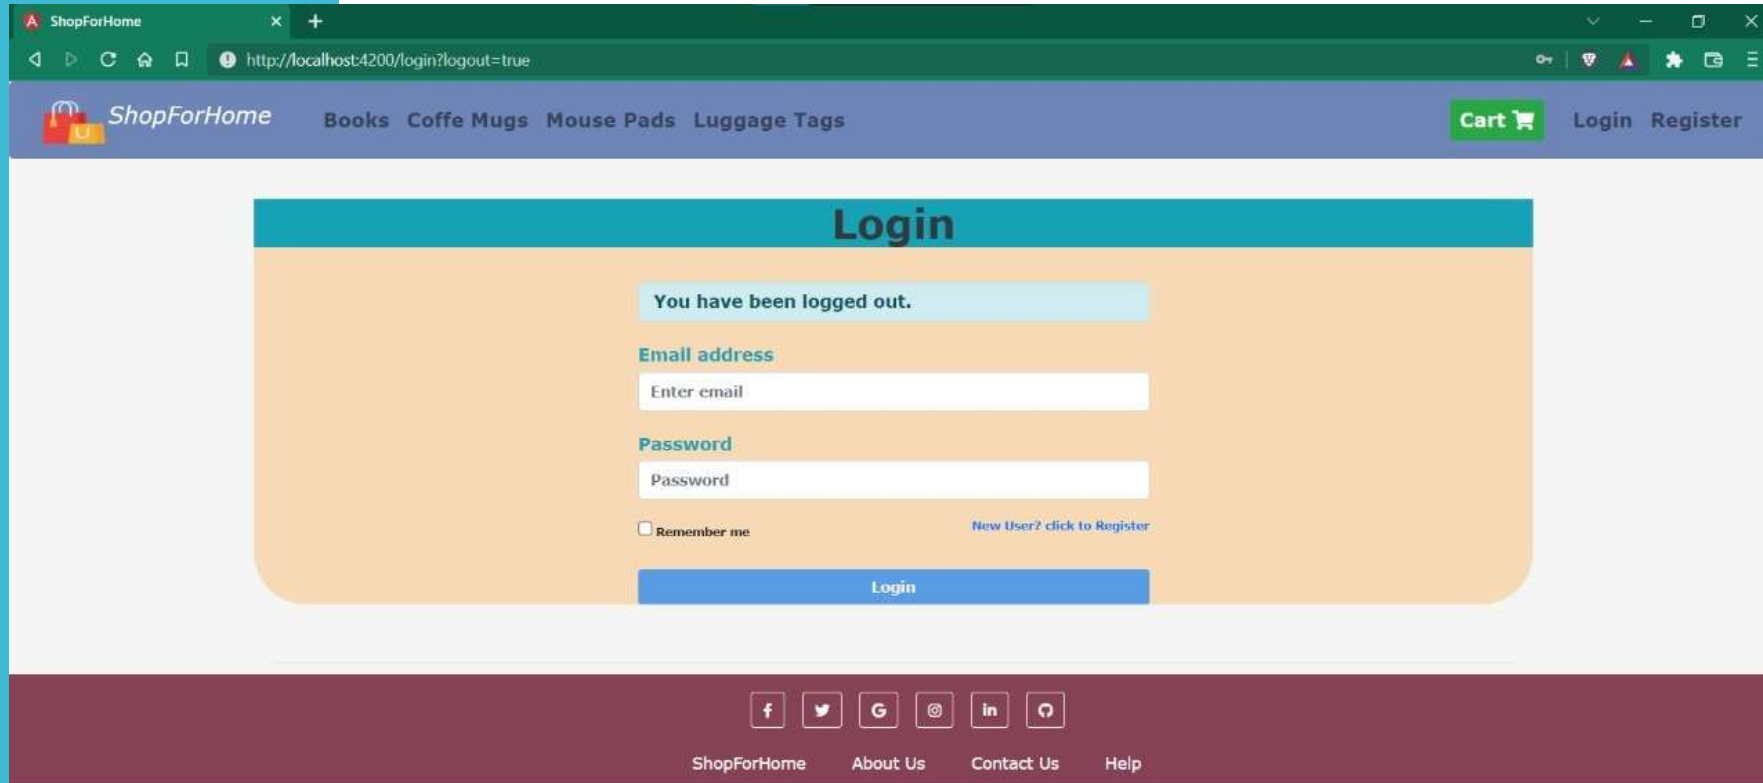

The screenshot shows a web browser window with the address bar displaying `http://localhost:4200/register`. The page features a navigation bar with the ShopForHome logo, product categories (Books, Coffe Mugs, Mouse Pads, Luggage Tags), a Cart icon, and links for Login and Register. The main content area is titled "Registration Form" and contains a light orange box with the following fields:

- Email address**: Input field with placeholder text "Enter email".
- Name**: Input field with placeholder text "Your name".
- Password**: Input field with placeholder text "Password".
- Phone**: Input field with placeholder text "Phone".
- Address**: Input field with placeholder text "Address".

Below the address field, there is a link: "Already registered? click to login". At the bottom of the form box is a blue "Sign Up" button. The footer of the page includes social media icons (Facebook, Twitter, Google+, Instagram, LinkedIn, YouTube) and links for ShopForHome, About Us, Contact Us, and Help. A Windows watermark is visible in the bottom right corner.

User Login

The screenshot shows a web browser window with the address bar displaying `http://localhost:4200/login?logout=true`. The page header for "ShopForHome" includes navigation links for "Books", "Coffe Mugs", "Mouse Pads", and "Luggage Tags", along with a "Cart" icon and "Login" and "Register" buttons. The main content area features a "Login" form with a teal header. A light blue message box states "You have been logged out." The form includes an "Email address" field with the placeholder "Enter email", a "Password" field with the placeholder "Password", and a "Remember me" checkbox. A link "New User? click to Register" is positioned to the right of the password field. A blue "Login" button is at the bottom of the form. The footer contains social media icons for Facebook, Twitter, Google+, Instagram, LinkedIn, and YouTube, followed by links for "ShopForHome", "About Us", "Contact Us", and "Help".

DISCOUNT COUPON

The screenshot displays a web browser window with the address `http://localhost:4200/discount`. The application header features the 'ShopForHome' logo and navigation links: Discount %, Users, Stocks, Orders, Admin, and Logout. The main content area is titled 'Discount Coupons' and contains a search bar with the text 'Search for Coupons ...' and a 'Search' button. Below the search bar, a dropdown menu shows 'New10' and 'NEW10'. A table with the following structure is visible:

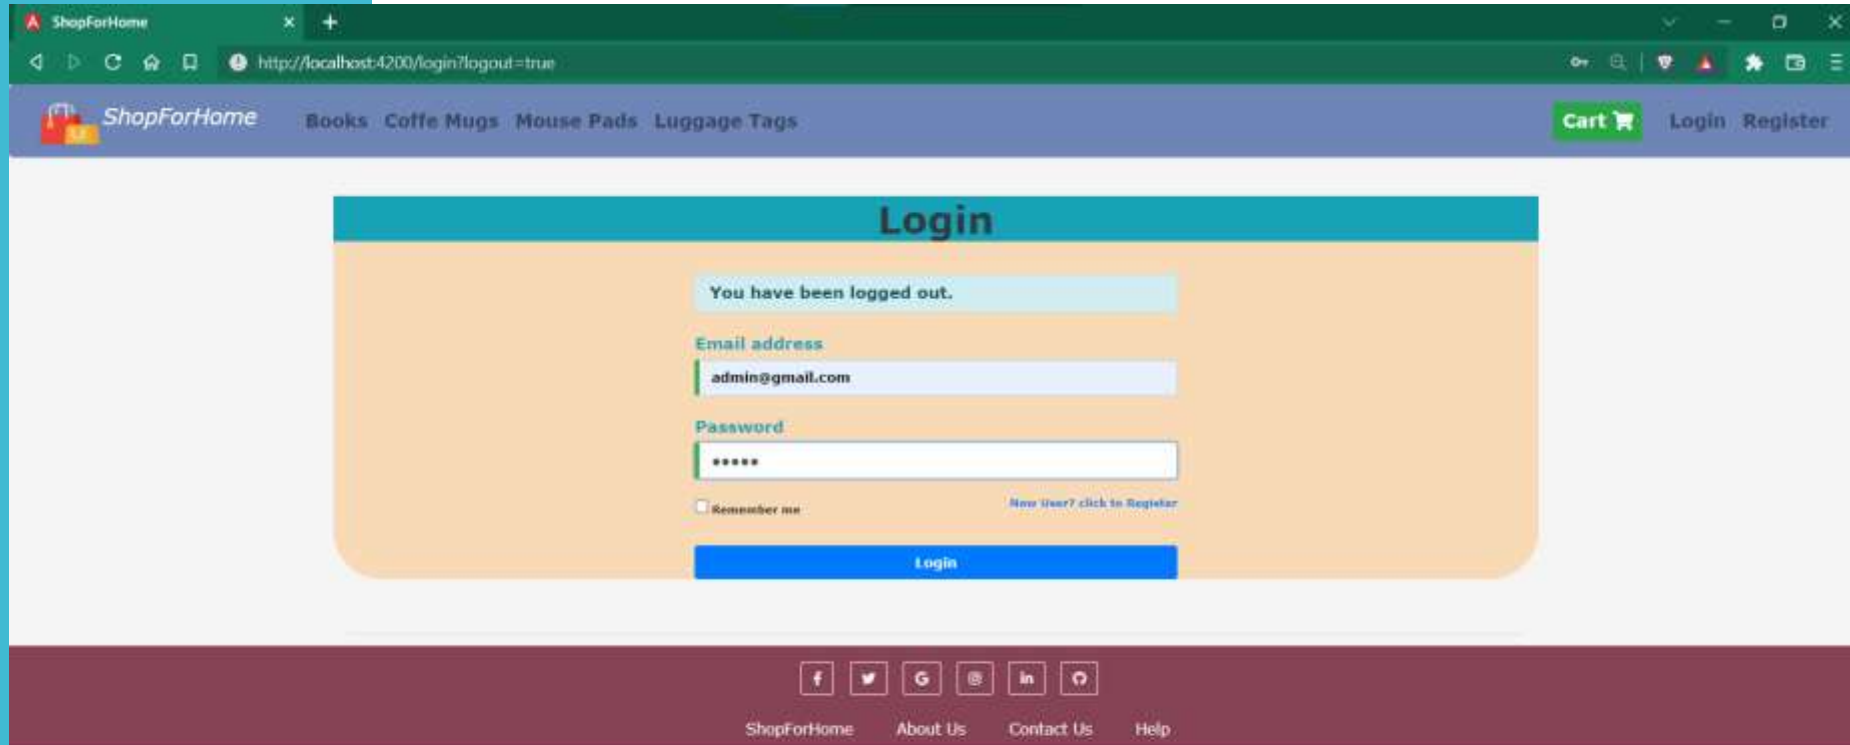

Couponcode	Action
NEW10	

At the bottom of the table, there are 'Previous', '1', and 'Next' pagination links. The footer includes social media icons for Facebook, Twitter, Google+, Instagram, LinkedIn, and YouTube, along with links to ShopForHome, About Us, Contact Us, and Help.

ADMIN

- 1.As an Admin I should be able to login, Logout and Register into the application.
- 2.As an Admin I should be able to perform CRUD on Users.
- 3.As an Admin I should be able to Perform CRUD on the products.
- 4.As an Admin I should be able to get bulk upload option to upload a csv for products details
- 5.As an Admin I should be able to get the stocks.
- 6.As an Admin I should be able to mail if any stock is less than 10.
- 7.As an Admin I should be able to get the sales report of a specific duration.
- 8.As an Admin I should be able to set the discount coupons for the specific set of users

ADMIN LOGIN/ SIGNUP

The screenshot shows a web browser window with the URL `http://localhost:4200/login?logout=true`. The page title is "ShopForHome". The navigation bar includes links for "Books", "Coffe Mugs", "Mouse Pads", and "Luggage Tags", along with a "Cart" icon, "Login", and "Register" buttons. The main content area features a "Login" form with a teal header. A message "You have been logged out." is displayed. The form includes fields for "Email address" (containing "admin@gmail.com") and "Password" (masked with "*****"). There is a "Remember me" checkbox and a link "New User? click to Register". A blue "Login" button is at the bottom of the form. The footer contains social media icons and links for "ShopForHome", "About Us", "Contact Us", and "Help".

ADD PRODUCTS (Admin)

The screenshot shows the 'Products' management page in the ShopForHome admin interface. At the top, there's a navigation bar with links for Discount, Users, Stocks, Orders, Admin, and Logout. Below the navigation bar, the 'Products' title is centered, with an 'Add Product' button on the right. A file upload section includes a 'Choose File' button, a 'No file chosen' status, and buttons for 'Upload Product' and 'Download Product'. A search bar with a 'Search' button is also present. The main content is a table listing products with columns for Photo, Code, Name, Type, Description, Price, Stock, Status, Action, and Mail. Three products are listed: 'BOOK-TECH-1001' (Python), 'BOOK-TECH-1002' (JavaScript), and 'BOOK-TECH-1003' (Vue.js). Each product row has 'Add', 'Remove', and 'Edit' action buttons. An 'Activate Windows' watermark is visible in the bottom right corner.

Photo	Code	Name	Type	Description	Price	Stock	Status	Action	Mail
	BOOK-TECH-1001	Crash Course in Python	Books	Learn Python at your own pace. The author explains how the technology works in easy-to-understand language. This book includes working examples that you can apply to your own projects. Purchase the book and get started today!	\$16.99	0	Available	Add Remove Edit	
	BOOK-TECH-1002	Become a Guru in JavaScript	Books	Learn JavaScript at your own pace. The author explains how the technology works in easy-to-understand language. This book includes working examples that you can apply to your own projects. Purchase the book and get started today!	\$20.99	100	Available	Add Remove Edit	
	BOOK-TECH-1003	Exploring Vue.js	Books	Learn Vue.js at your own pace. The author explains how the technology works in easy-to-understand language. This book includes working examples that you can apply to your own projects. Purchase the book and get started today!	\$16.99	100	Available	Add Remove Edit	

The screenshot shows the 'New Product' form in the ShopForHome admin interface. The navigation bar is the same as the previous page. The form title 'New Product' is centered at the top. The form fields are: 'Code' (Product Code), 'Photo Link' (Photo), 'Name' (Product Name), 'Category' (Books), 'Description' (Product Description), 'Price' (20), 'Stock' (100), and 'Status' (Available). Each field has a corresponding input or select box. A blue 'Submit' button is at the bottom. An 'Activate Windows' watermark is visible in the bottom right corner.

DATABASE SCHEMA

AWS CLOUD DEPLOYMENT

The screenshot displays the AWS Management Console interface for EC2 instances. On the left, a navigation sidebar includes links to the EC2 Dashboard, Global View, Events, Tags, Limits, and a section for Instances (with sub-links for Instances, Instance Types, Launch Templates, Spot Requests, Savings Plans, Reserved Instances, Dedicated Hosts, and Capacity Reservations). Below this is the Images section (with sub-links for AMIs and AMI Catalog). The main content area is titled 'Instances (3/3)' and features a search bar, a table of instances, and a 'Monitoring' section at the bottom.

Name	Instance ID	Instance state	Instance type	Status check	Alarm
MyMachine-1	i-06b31bd37c12b1941	Running	t2.micro	2/2 checks passed	No alarm
MyMachine-2	i-0841eb7f4ab405c44	Running	t2.micro	2/2 checks passed	No alarm
MyMachine-1	i-036d19b7ea4959f94	Running	t2.micro	2/2 checks passed	No alarm

The 'Monitoring' section at the bottom shows four widgets: 'CPU utilization (%)' (Percent), 'Status check failed (any) (c...)' (Count), 'Status check failed (instanc...)' (Count), and 'Status check failed (system...)' (Count). The interface also includes a 'Feedback' link, a language selection prompt, and a footer with copyright information and links to Privacy, Terms, and Cookie preferences.

EC2 > Instances > i-0841eb7f4ab405c44 > Connect to instance

Connect to instance

Connect to your instance

Instance ID: i-0841eb7f4ab405c44

1. Open an S3 bucket and upload the key pair to the bucket.

2. Locate your instance.

3. Run this command to download the key pair from the bucket.

4. Connect to your instance using the key pair.

Example:

Note: The AMI must be Amazon Linux 2.

root@ip-172-31-43-139/home/ec2-user
